Colombo, Sri Lanka, Malabe

PROFILE

Ambitious undergraduate pursuing a **BIT (Hons) in Networking and Mobile Computing** at Horizon Campus, with experience in building **secure, scalable, and full-stack applications**. Skilled in **Python, React, Node.js**, and **cloud deployment**, achieving measurable improvements in **system performance** and **usability**. Passionate about applying **analytical problem-solving, software engineering best practices**, and **innovative thinking** to deliver impactful digital solutions.

EDUCATION

- **BIT (Hons) in Networking & Mobile Computing** — Horizon Campus, Malabe *Reading*
- **Diploma in Web Development** — STUDYZ Academy *Following*
- **G.C.E. (A/L) in Engineering Technology** — Methodist Central College, Batticaloa *2020*

WORK EXPERIENCE

- **Freelance Web & Mobile Developer** *Present*
 - Delivered **5+ custom websites and mobile applications** for clients across business and personal domains.
 - Developed **full-stack solutions** using React, Node.js, Firebase, and MongoDB, ensuring **scalability, security, and maintainability**.
 - Improved website load time by up to **35%** through optimized asset delivery, caching strategies, and performance tuning.
- **Mobile Application Development Trainee – Softwareplus Pvt Ltd** *Present*
 - Assisted in the development of **mobile applications** for ERP, LMS, and inventory management systems using **Android (Kotlin/Java)** and **cross-platform frameworks**.
 - Collaborated with senior developers to implement **secure, efficient, and scalable app features**, following best practices and coding standards.
 - Participated in **code reviews, testing, and debugging**, ensuring high-quality deliverables and improved user experience.

PROJECTS

- **AI-Powered Investment Assistant – PoC** *Python, Streamlit*
 - Streamlit-based web application demonstrating the technical feasibility of an AI-powered investment assistant.
 - Designed for beginner investors in the Sri Lankan stock market.
 - Features interactive dashboards, personalized recommendations, and real-time insights.
 - **GitHub:** Repository
- **Sri Lankan Academic Risk Prediction System** *Python, Streamlit, Scikit-learn*
 - ML-based web app predicting students at risk of academic underperformance.
 - Achieved 82% accuracy using models trained on 1,500+ records.
 - Provides probability visualization and feature importance insights.
 - **GitHub:** Academic Risk Prediction System

MERN Note Taking App

MongoDB, Express.js, React.js, Node.js, Netlify Functions

- Full-stack note-taking application with CRUD functionality and a modern Synthwave UI.
- Deployed on Netlify using serverless backend powered by Netlify Functions.
- Includes secure RESTful APIs, optimized performance, and responsive design.
- **Live Demo:** MERN Note Taking App — **GitHub:** Repository

Zero Hunger Mobile App

Android Studio, Java

- Mobile app connecting donors with communities to reduce food waste.
- Features real-time map, donation system, and secure authentication.
- **GitHub:** Zero Hunger Mobile App

QuickCart – React Native E-Commerce App

React Native, Node.js, MongoDB

- Mobile e-commerce app built for hackathon participation.
- Integrated Node.js backend, intuitive UI, and secure transactions.
- **GitHub:** Mobile App

Personal Portfolio Website

React.js, Vite, Tailwind CSS

- Fully responsive portfolio showcasing full-stack and mobile projects.
- Optimized for performance using Vite and modular React components.
- **Live Site:** Portfolio Website — **GitHub:** Repository

NatureGo.lk – Eco-Tourism Platform

React, Node.js, MongoDB

- Full-stack eco-tourism platform promoting sustainable travel.
- Includes JWT authentication, Tailwind UI, and CI/CD integration.
- **Live:** Site — **Code:** GitHub

ACHIEVEMENTS & CERTIFICATIONS

- **Frontend Developer (React)** — HackerRank *Jul 2025*
 - Certified in React.js frontend development.
- **Career Essentials in Generative AI** — Microsoft & LinkedIn *Jan 2025*
 - Gained practical knowledge in Generative AI, responsible AI, and applied business use cases.
- **Introduction to Cybersecurity** — Cisco Networking Academy *Jan 2025*
 - Studied cybersecurity foundations, threat detection, and network protection concepts.
- **Web Development** — University of Moratuwa *Dec 2024*
 - Completed structured training covering full-stack web development fundamentals.

SKILLS

- **Programming Languages:** Java, JavaScript (ES6+), Python, PHP, HTML5, CSS3
- **Frameworks & Libraries:** React.js, React Native, Node.js, Tailwind CSS, Framer Motion, Shadcn/UI
- **Databases:** PostgreSQL, MySQL, MongoDB Atlas (SQL & NoSQL)
- **Web & API Development:** RESTful APIs, FastAPI, Firebase Authentication
- **Mobile Development:** Android (Java, Kotlin), React Native
- **Cloud & Deployment:** AWS, Netlify, Vercel
- **Tools & Collaboration:** Git, GitHub, Postman, Figma
